How confident are you in your writing skills since joining AAA?

Since joining AAA, have you submitted articles to scientific journals?

SHARED REFLECTIONS

It has changed my mindset, making me feel more confident in writing papers and more aware of how to write better.

The program gave me motivation and guidelines in every single aspect of my academic mindset. I'm so grateful for being part of the AAA program.

The module "the right mindset" helps a lot to keep confidence high

AAA emphasizes clarity of purpose, alignment, visibility, and sustainability. My AAA experiences have reduced my self-doubt and helped me see my academic identity as something I am intentionally building rather than proving. I am now more aware of my strengths, values, and boundaries than ever before.

It helped me develop a better understanding of the full process of publication.

Knowing there is help and support for any aspect of paper publication helped me immensely. Also, knowing there is an opportunity to meet and discuss my work is a big support. Feedback is always high-quality and helpful.
